THE
BIOLOGICAL BULLETIN

PUBLISHED BY
THE MARINE BIOLOGICAL LABORATORY

Editorial Board

JOHN M. ANDERSON, Cornell University
EDWARD M. BERGER, Dartmouth College
STEVEN C. BROWN, State University of New York at Albany
PHILIP B. DUNHAM, Syracuse University
CATHERINE HENLEY, National Institutes of Health
J. B. JENNINGS, University of Leeds
MEREDITH L. JONES, Smithsonian Institution
GEORGE O. MACKIE, University of Victoria
HOWARD A. SCHNEIDERMAN, Monsanto Research Corporation
RALPH I. SMITH, University of California, Berkeley
F. JOHN VERNBERG, University of South Carolina
EDWARD O. WILSON, Harvard University
W. D. RUSSELL-HUNTER, Syracuse University
Managing Editor

VOLUME 157
JULY TO DECEMBER, 1979

Printed and Issued by
LANCASTER PRESS, Inc.
PRINCE & LEMON STS.
LANCASTER, PA.

The BIOLOGICAL BULLETIN is issued six times a year at the Lancaster Press, Inc., Prince and Lemon Streets, Lancaster, Pennsylvania.

Subscriptions and similar matter should be addressed to The Biological Bulletin, Marine Biological Laboratory, Woods Hole, Massachusetts. Agent for Great Britain: Wheldon and Wesley, Limited, 2, 3 and 4 Arthur Street, New Oxford Street, London, W. C. 2. Single numbers, $10.00. Subscription per volume (three issues), $27.00.

Communications relative to manuscripts should be sent to Dr. Charles B. Metz, Marine Biological Laboratory, Woods Hole, Massachusetts 02543 between June 1 and September 1, and to Dr. Charles B. Metz, Institute For Molecular and Cellular Evolution, University of Miami, 521 Anastasia, Coral Gables, Florida 33134 during the remainder of the year.

THE BIOLOGICAL BULLETIN (ISSN 0006-3185)

Second-class-postage paid at Woods Hole, Mass., and additional mailing offices.

LANCASTER PRESS, INC., LANCASTER, PA.

CONTENTS

No. 1, August, 1979

Annual Report of the Marine Biological Laboratory 1

Bird, Dennis J., and Albert F. Eble
Cytology and polysaccharide cytochemistry of the gill of the American eel, *Anguilla rostrata* 104

Briggs, R. P.
Fine structure of musculature in the copepod *Paranthessius anemoniae* Claus 112

Felder, Darryl L.
Respiratory adaptations of the estuarine mud shrimp, *Callianassa jamaicense* (Schmitt, 1935) (Crustacea, Decapoda, Thalassinidea) .. 125

Harris, Larry G., and Nathan R. Howe
An analysis of the defensive mechanisms observed in the anemone *Anthopleura elegantissima* in response to its nudibranch predator *Aeolidia papillosa* 138

Kuhl, Deirdre L., and Larry C. Oglesby
Reproduction and survival of the pileworm *Nereis succinea* in higher Salton Sea salinities 153

Lang, William H., Richard B. Forward, Jr., and Don C. Miller
Behavioral responses of *Balanus improvisus* nauplii to light intensity and spectrum 166

Nakatani, Isamu, and Takashi Ōtsu
The effects of eyestalk, leg, and uropod removal on the molting and growth of young crayfish, *Procambarus clarkii* 182

Stokes, Darrell R., and Norman B. Rushforth
Evoked responses to electrical stimulation in the colonial hydroid *Clava squamata:* A contraction pulse system 189

Wenner, Adrian M., and Craig Fusaro
An analysis of population structure in Pacific mole crabs (*Hippa pacifica* Dana) 205

No. 2, October, 1979

Cornell, John C.
Salt and water balance in two marine spider crabs, *Libinia emarginata* and *Pugettia producta*. I. Urine production and magnesium regulation. 221

D'Abramo, Louis R.
Dietary fatty acid and temperature effects on the productivity of the cladoceran, *Moina macrocopa* 234

Fujimori, Takumi, and Setsuro Hirai
Differences in starfish oocyte susceptibility to polyspermy during the course of maturation 249

Komatsu, Miéko, Yasuo T. Kano, Hideki Yoshizawa, Shoji Akabane, and Chitaru Oguro
Reproduction and development of the hermaphroditic sea-star, *Asterina minor* Hayashi 258

LANE, JACQUELINE MOSS, AND JOHN M. LAWRENCE
The effect of size, temperature, oxygen level and nutritional condition on oxygen uptake in the sand dollar, *Mellita quinquiesperforata* (Leske) 275
LEE, HSUEH-TZE, AND RICHARD D. CAMPBELL
Development and behavior of an intergeneric chimera of hydra (*Pelmatohydra oligactis* interstitial cells: *Hydra attenuata* epithelial cells) 288
MARCUS, NANCY H.
On the population biology and nature of diapause of *Labidocera aestiva* (Copepoda: Calanoida) 297
MOFFETT, STACIA
Locomotion in the primitive pulmonate snail *Melampus bidentatus:* foot structure and function 306
ROBERTSON, ROBERT, AND TERRY MAU-LASTOVICKA
The ectoparasitism of *Boonea* and *Fargoa* (Gastropoda: Pyramidellidae) 320
SCARBOROUGH, ANN, AND EARL WEIDNER
Field and laboratory studies of *Glugea hertwigi* (Microsporida) in the rainbow smelt *Osmerus mordax* 334
WHITTAKER, J. R.
Development of tail muscle acetylcholinesterase in ascidian embryos lacking mitochondrial localization and segregation 344
ABSTRACTS OF PAPERS PRESENTED AT THE MARINE BIOLOGICAL LABORATORY 356

No. 3, December, 1979

AUDESIRK, TERESA E.
A field study of growth and reproduction in *Aplysia californica* 407
CORNELL, JOHN C.
Salt and water balance in two marine spider crabs, *Libinia emarginata* and *Pugettia producta*. II. Apparent water permeability 422
COSTOPULOS, JAMES J., GROVER C. STEPHENS, AND STEPHEN H. WRIGHT
Uptake of amino acids by marine polychaetes under anoxic conditions 434
CUKIER, MARTA, GRACIELA ALICIA GUERRERO, AND MARÍA CRISTINA MAGGESE
Parthenogenesis in *Coptopteryx viridis*, Giglio Tos (1915) (Dyctioptera, Mantidae) 445
GALLARDO, C. S.
Developmental pattern and adaptations for reproduction in *Nucella crassilabrum* and other muricacean gastropods 453
LAMBERT, GRETCHEN
Early post-metamorphic growth, budding and spicule formation in the compound ascidian *Cystodytes lobatus* 464
MINASIAN, LEO L., JR., AND RICHARD N. MARISCAL
Characteristics and regulation of fission activity in clonal cultures of the cosmopolitan sea anemone, *Haliplanella luciae* (Verrill) 478

RUDLOE, ANNE
Locomotor and light responses of larvae of the horseshoe crab, *Limulus polyphemus* (L.) 494
SATTERLIE, RICHARD A., AND JAMES F. CASE
Development of bioluminescence and other effector responses in the pennatulid coelenterate *Renilla kollikeri* 506
STRATHMANN, R. R., AND E. LEISE
On feeding mechanisms and clearance rates of molluscan veligers 524
ZAMER, WILLIAM E., AND CHARLOTTE P. MANGUM
Irreversible nongenetic temperature adaptation of oxygen uptake in clones of the sea anemone *Haliplanella luciae* (Verrill) 536
INDEX TO VOLUME 157 548

INDEX

A

Ablation of antennules in lobster, effects on food odor orientation in, 366
Absorption properties of *Platymonas* containing high levels of chlorophyll **b**, 370
Acetylcholine receptors, effects of azobenzene on, 356
Acetylcholinesterase, ascidian larval, development in absence of mitochondrial localization, 344
Acid cells, sulfuric, in tunic of colonial ascidian, 464
Actin gene-containing plasmid from *Drosophila melanogaster*, 367
Actin myofilaments, in copepod muscle, 112
ADAMS, J. A. Morphogenesis in grafted *Hydra attenuata:* positive dominance, negative dominance, and pattern regulation, 356
Adaptation, of saltmarsh bacteria, 375
  for reproduction, in *Nucella crassilabrum*, 453
  temperature, of oxygen uptake in *Haliplanella luciae*, 536
ADEJUWON, C. A. See E. F. Couch, 364
ADEJUWON, C. A., S. J. SEGAL, AND S. S. KOIDE. Alternate pathways in the biosynthesis of testosterone by *Rana pipiens*, 356
ADEJUWON, C. A. See S. J. Segal, 393
Aeolidia papillosa, response of *Anthopleura* to predator attacks by, 138
Aggregation factor, effect of, on sponge cells, 373
AKABANE, S. See M. Komatsu, 258
ALBERTE, R. S. See A. M. B. Hogan, 371; B. A. Hayhome, 370; D. L. Gustafson, 371; L. Mazzella, 382; M. A. Frey, 368; and T. A. Kursar, 376
ALKON, D. L. See E. W. Stommel, 397
Amino acid receptors in catfish taste, 396
  transport by marine polychaetes, 434
  transport in toadfish liver, 388
Ammonification of soil in hardwood and pine forests, 386
Amphipod nutrition, importance of bacterial biomass, fungal biomass, and *Spartina* detritus in, 389
ANDERSON, P. See C. Serhan, 394
Anemone, defensive mechanisms of, 138
Anglerfish islet tissue, synexin-like factor in, 389
Anguilla, population studies on, in the Great Sippewissett salt marsh, 368
Anguilla rostrata, cytology of the gill of, 104
Anoxia, tolerance of, in *Callianassa*, 125
Anoxic conditions, effects on amino acid transport in marine polychaetes, 434
Antibody, tubulin, induces microtubule depolymerization, 373
Anthopleura elegantissima, defensive mechanisms against nudibranch attacks, 138
Aplysia californica, growth and reproduction, 407
  mariculture of, 360
Aplysia pacemaker neuron, synaptic hyperpolarization in, 399
Appendage removal, effect on molting and growth in crayfish, 182
Arbacia eggs, phosphorylation of protein after fertilization in, 357
Arbacia embryos, phagosomes from, 375
Arbacia punctulata, transcription in nuclei of, 365
Arbacia, translational regulation of histone synthesis in, 367
Arsenazo III in liposomes, for study of calcium ionophores, 394
Ascidian, budding, colony and spicule formation in, 464
  larval tail muscle determination and differentiation, 344
Ascomycete, *Laminaria* infected by an, 392
Asexual reproduction in clonal cultures of *Haliplanella luciae*, 478
Astarte, characterization of hemoglobin in, 403
Asterina minor, breeding and development of, 258
Asterias amurensis, oocyte susceptibility to polyspermy, 249
Asterina pectinifera, oocyte susceptibility to polyspermy, 249
ATEMA, J. See A. Stewart, 396; B. Bryant, 360; C. Derby, 365; D. Devine, 366; E. Karnofsky, 374; and P. Reilly, 391
ATWOOD, H. L. See M. P. Charlton, 361
AUDESIRK, T. E. A field study of growth and reproduction in *Aplysia californica*, 407
AUSIO, J. AND K. E. VAN HOLDE. Characterization of *Spisula* sperm protamine, 357
AUSIO, J. See L. Herlands, 370
Axenic culture, of *Moina*, 234
Azobenzene compounds, effects on acetylcholine receptors of skate, 376

B

Bacterial biomass, importance in amphipod nutrition, 389
BAKER, E. See M. Winkler, 402
Balanus improvisus, photoresponse of nauplii, 166
Balanus, particle size selectivity in, 386
BALLINGER, D., S. PETERSON, AND T. HUNT. Phosphorylation of the 40s ribosomal subunit after fertilization of *Arbacia punctulata* eggs, 357
BAUER, G. E. See H. B. Pollard, 389
Behavior, in hydrozoan colonies, 189
of *Limulus* larvae, in reference to lunar and tidal rhythms, 494
BELL, E., N. NAKATSUJI, AND S. SHER. Difference between SDS-PAGE patterns of *Labyrinthula* slimeways and vegetative cells, 358
BELL, E. See N. Nakatsuji, 384
BENNETT, M. V. L. See M. S. Cappell, 360; and R. B. Hanna, 370
BERG, C. J., Jr. See T. R. Capo, 360
Bioluminescence, development of, in *Renilla,* 506
Biomechanics of crawling, in *Melampus,* 306
Biosynthesis of testosterone, by *Rana pipiens,* 356
BIRD, D. J. AND A. F. EBLE. Cytology and polysaccharide cytochemistry of the gill of the American eel, *Anguilla rostrata,* 104
Blood of spider crabs, major constituents of, 221
BONE, S. Conduction and dielectric studies of protein-methylglyoxal complexes, 358
Boonea, ectoparasitism of, 320
BORON, W. F. See J. M. Russell, 392
BOURNE, G. B. Pressure-flow relations in the perfused systemic circulation of squid, 358
BOYLE, M. B., L. B. COHEN, AND E. R. MACAGNO. The numbers and sizes of cells in molluscan ganglia; simultaneous optical recording of activity from many neurons, 359
BOYNTON, J. E. Optimal prey selection of *Littorina littorea* by green crabs, 359
Brachiolaria sea star lacking pelagic life, 258
Brain tubulin, purification of, from dogfish and skate, 377
Breeding assemblage of *Asterina,* 258
BRIGGS, R. P. Fine structure of musculature in the copepod *Paranthessius anemoniae* Claus, 112
Brown algae and diatoms, pigment-protein complexes from, 371
BROWN, J. See D. Kew, 375
BROWN, S. B. See R. F. Troxler, 400
BRYANT, B. AND J. ATEMA. Chemoreception in catfish: effects of diet on behavior and body odor, 360
BRYANT, B. See A. Stewart, 396
Budding in a compound ascidian, 464

C

Calcium ionophores, arsenazo III in liposomes, for the study of, 394
Callianassa jamaicense, respiration in, 125
Callichirus jamaicense, respiration in, 125
Calmodulin, a protein in microvilli, 372
CAMPBELL, R. D. See H.-T. Lee, 288
CAPPELL, M. S., D. C. SPRAY, D. H. HALL, A. J. SUSSWEIN, AND M. V. L BENNETT. Motor fields of pharyngeal motoneurons in *Navanax,* an opisthobranch mollusc, 360
CAPO, T. R., S. E. PERRITT, AND C. J. BERG, JR. New developments in the mariculture of *Aplysia californica,* 360
Carcinus maenas, salt and water balance in, 422
Catfish, chemoreception and social behavior, 360
amino acid receptors in, 396
Centriole-like structures, association with the marginal band of a molluscan red cell, 363
CHARLTON, M. P., C. S. THOMPSON, AND H. L. ATWOOD. Ionophore induced sodium loading of nerve terminals: a model for long term facilitation of transmitter release, 361
Chemical search image in lobsters, 365
Chemoreception, in catfish social behavior, 360
in lobster, responses to secondary plant compounds, 391
CHILTON, B. S., M. R. LAUFER, AND S. V. NICOSIA. Some biochemical properties of an RNA-instructed DNA polymerase in developing sea urchin (*Lytechinus pictus*) embryos, 362
Chimeras, hydra, development and behavior of, 288
Chlorophyll **b**, absorption properties of *Platymonas* containing it, 370
Chloroplasts, RNA synthesis in, 401
Chlorotetracycline fluorescence in *Haemanthus* cell division using image intensification, 402
Chondrus, gametophytes and sporophytes of, 387
Choriogonadotropin-like substances from a microorganism and a crab, 380
Cilia feeding mechanisms, clearance rate of, in molluscan veligers, 524
Ciliary swimming in planula larvae, 478

Ciliogenesis, membrane particle arrays in *Tetrahymena* during, 372
Ciona, tidal rhythm in the neural gland of, 378
Cirripedia, photoresponses in, 166
Cladocerans, effects of dietary fatty acid and temperature on productivity of, 234
Clava squamata, evoked responses to electrical stimulation of, 189
Clava, three conducting systems in, 396
Clearance rates, of molluscan veligers, 524
COBURN, M., S. SCHUEL, AND W. TROLL. Hydrogen peroxide release from sea urchin eggs during fertilization: importance in the block to polyspermy, 362
COHEN, L. B. See M. B. Boyle, 359
COHEN, W. D. AND I. NEMHAUSER. Association of centriole-like structures with the marginal band of molluscan red cell, 363
COHEN, W. D. See I. Nemhauser, 384
Colonial reorganization and spicule formation in a tunicate colony, 464
Conducting systems, electrical, in colonial hydroids, 189
three, in *Clava*, 396
Conduction studies of protein-methylglyoxal complexes, 358
Contractile proteins, in *Labyrinthula* slimeways, 358
Copepods, diapausing eggs of, 297
fine structure of musculature in, 112
Coptopteryx viridis, parthenogenesis in, 445
CORNELL, J. C. Salt and water balance in two marine spider crabs, *Libinia emarginata* and *Pugettia producta*. I. Urine production and magnesium regulation, 221
CORNELL, J. C. Salt and water balance in two marine spider crabs, *Libinia emarginata* and *Pugettia producta*. II. Apparent water permeability, 422
CORSON, D. W. AND A. FEIN. Dependence of discrete wave frequency on pH in *Limulus* ventral photoreceptors, 363
COSTOPULOS, J. J., G. C. STEPHENS, AND S. H. WRIGHT. Uptake of amino acids by marine polychaetes under anoxic conditions, 434
COUCH, E. F., C. A. ADEJUWON, AND S. S. KOIDE. Production and metabolism of steroids in *Homarus americanus*, 364
Coupling resistance associated with structural changes in the septate axon of crayfish, 370
Crabs, spider, apparent water permeability in, 422
CRAIN, W. R. See D. S. Durica, 367
Crassostrea gigas, feeding mechanisms of, 524
Crawl-step, stage of locomotion in *Melampus*, 306
Crayfish, septate axon of, coupling resistance associated with structural change in, 370
CROW, T. AND N. OFFENBACH. Response specificity following behavioral training in the nudibranch mollusk, *Hermissenda crassicornis*, 364
CUKIER, M., G. A. GUERRERO, AND M. C. MAGGESE. Parthenogenesis in *Coptopteryx viridis*, Giglio Tos (1915) (Dyctioptera, Mantidae), 445
Cyclic nucleotides, effects on hyperpolarization of *Aplysia* pacemaker neuron, 399
Cystodytes lobatus, growth, budding, and spicule formation in, 464
Cytochemistry, of eel gill, 104
Cytology, of eel gill, 104
Cytoskeleton, in *Labyrinthula* slimeways, 384
proteins in squid axoplasm, 384

D

D'ABRAMO, L. R. Dietary fatty acid and temperature effects on the productivity of the cladoceran, *Moina macrocopa*, 234
DAVIS, L. M. *In vitro* transcription in nuclei from *Arbacia punctulata*, 365
Defensive strategy of *Anthopleura* against nudibranch predators, 138
Denitrification, soil, using the acetylene block method, 404
DENTLER, W. L. See K. A. Suprenant, 398
DERBY, C. AND J. ATEMA. Chemical search image: prey exposure improves selective chemical detection by a predator (*Homarus americanus*), 365
DERBY, C. See P. Reilly, 391
Development of *Asterina minor*, 258
of neuroeffector function in *Renilla*, 506
pattern, of *Nucella*, 453
temperature, effects on size and oxygen uptake in a sea anemone, 536
DEVINE, D. AND J. ATEMA. Effects of unilateral antennule ablations on food odor orientation in *Homarus americanus*, 366
Dielectric studies of protein-methylglyoxal complexes, 358
Dietary fatty acid and temperature effects on *Moina*, 234
Differentiation, ascidian larval muscle, in absence of mitochondrial localization, 344
Diapause, in a copepod, 297
Disassembly of squid brain tissue neurofilaments, 403
Discrete waves, in *Limulus* ventral photoreceptors, 363

Diurnal response of the gray seal, *Halichoerus*, to tide and insolation, 387
DNA polymerase in embryos of *Lytechinus*, 362
repetition in sea urchin genome, recombinant studies in, 395
sequence homologies, between sea urchin DNA and a *Drosophila* actin gene-containing plasmid, 367
Dogfish eye lenses, compared to human eye lenses, 404
Drosophila, actin gene-containing plasmid from, 367
DUNCAN, R. AND T. HUMPHREYS. All the poly (A) (+)mRNA sequence complexity also occurs in poly (A) (−)mRNA in sea urchin embryos, 366
DURICA, D. S., J. A. SCHLOSS, AND W. R. CRAIN. Studies on actin mRNA-complimentary genomic DNA sequences in the sea urchin, *S. purpuratus*, 367
Dyes with negative reduction potentials, effect on mitosis, 379
Dynetic trematodes, life cycles of, 397

E

EARL, C. AND T. HUNT. Studies of the translational regulation of histone synthesis in *Arbacia punctulata*, 367
EBLE, A. F. See D. J. Bird, 104
Ecosystem, forest, bacterial denitrification in, 404
Ectoparasitism of *Boonca* and *Fargoa*, 320
Eel gill cytology, 104
Egg production, by *Hippa pacifica*, 205
EISEN, A. AND S. INOUE. Temperature-dependent timing of mitosis and cleavage in *Lytechinus variegatus*, 367
Electrical pulses in *Clava squamata*, 189
Electron charge transfer and the living state, 398
spin resonance studies of protein-methylglyoxal complexes, 369
Embryos, *Lytechinus*, DNA polymerase in, 362
Nucella, feeding and rate of development in, 453
Endotoxin, interaction with *Limulus* amebocyte lysate, 392
Erythrocytes, newt and chick, marginal bands in, 395
Euglena, fluorescence studies of protochlorophyll in, 368
Eye lenses, human and dogfish, 404
Eyestalk removal, effect on molting and growth in crayfish, 182
Eye tissues of dogfish, photosensitizing action of psoralens in, 379

F

Facilitation of transmitter release by sodium, 361
Fargoa, ectoparasitism of, 320
FARMANFARMAIAN, A. See R. Socci, 396
Feeding behavior, of hydra chimeras, 288
mechanisms and clearance rates of molluscan veligers, 524
FEIN, A. See D. W. Corson, 363
FELDER, D. L. Respiratory adaptations of the estuarine mud shrimp, *Callianassa jamaicense* (Schmitt, 1935) (Crustacea, Decapoda, Thalassinidea), 125
Fertilization, hydrogen peroxide as block to polyspermy in sea urchin eggs, 362
self, in a sea-star, 258
Fibronectin, plasma, and dogfish phagocytes, 401
FIORE, J. See N. Penncavage, 387; and S. Schatz, 392
Fission, regulation of, in the sea anemone, *Haliplanella luciae*, 478
Fluorescence studies of living cells, image intensification in, 391
of photochlorophyll(ide) in *Euglena*, 368
FORD, T. AND E. MERCER. Population density, size distribution, and home range of the American Eel (*Anguilla rostrata*) in the Great Sippewissett salt marsh, 368
FORWARD, R. B. JR. See W. H. Lang, 166
Food odor orientation, effects of antennule ablation in lobster on, 366
Foot structure and function, of *Melampus*, 306
FREY, M. A., R. S. ALBERTE, AND J. A. SCHIFF. Studies by fluorescence of protochlorophyll(ide) and its phototransformation in dark-grown *Euglena gracilis* var. *bacillaris*, 368
FRIEDMAN, A. L. See D. L. Gustafson, 371
FUJIMORI, T. AND S. HIRAI. Differences in starfish oocyte susceptibility to polyspermy during the course of maturation, 249
FUJIWARA, K. See S. Inoué, 373
Fungal biomass, importance in amphipod nutrition, 389
FUSARO, C. See A. M. Wenner, 205

GALLARDO, C. S. Developmental pattern and adaptations for reproduction in *Nucella crassilabrum* and other muricacean hosts, 453

Gametophytes of *Chondrus,* 387
GASCOYNE, P. R. C. Electron spin resonance studies of protein-methylglyoxal complexes and model systems, 369
Giant axon, squid, transmembrane movements of sulfur compounds in, 390
Gill structure, of the American eel, 104
GILSON, M. See B. D. Teague, 399
Glial-axonal protein transfer in squid giant axon, 400
Glugea hertwigi, intracellular parasite of smelt, 334
GOLDMAN, A. E. See R. V. Zackroff, 403
GOLDMAN, R. D. See R. V. Zackroff, 403; and I. Nemhauser, 384
GOODMAN, E. See C. Serhan, 394
Grafted *Hydra attenuata,* morphogenesis in, 356
Great Sippewissett salt marsh, population studies of *Auguilla* in the, 368
GREENBERG, S. Is there tubulin in spirochaetes, 369
Green crabs, selection of *Littorina littorea* as prey, 359
Growth, and reproduction of meiofauna in selected natural microfloral assemblages, 378
in a compound ascidian, 464
in *Procambarus clarkii,* 182
of *Aplysia* in the field, 407
GUERRERO, G. A. See M. Cukier, 445
GUILLARD, R. R. L. See B. A. Hayhome, 370
GUSTAFSON, D. L., A. L. FRIEDMAN, M. S. RUDNICK, H. LYMAN, AND R. S. ALBERTE. Light-harvesting pigment-protein complexes from brown algae and diatoms: implications for the organization of the photosynthetic unit, 371

H

HAAS, G. See L. Mastroianni, 381
Haemanthus cell plate formation, chlorotetracycline fluorescence in, using image intensification, 402
Halichoerus, diurnal response of, to tide and insolation, 387
Haliplanella luciae, regulation of fission activities in, 478
Haliplanella luciae, temperature adaptation of oxygen uptake in, 536
HALL, D. H. See M. S. Cappell, 360
HANNA, R. B., G. D. PAPPAS, AND M. V. L. BENNETT. Structural changes associated with increased coupling resistance in the septate axon of the crayfish, 370
HARRIS, L. G. AND N. R. HOWE. An analysis of the defensive mechanisms observed in the anemone *Anthopleura elegantissima* in response to its nudibranch predator *Aeolidia papillosa,* 138
HASCHEMEYER, A. E. V. See R. W. Mathews; and R. Persell, 388
HAYHOME, B. A., J. A., SCHIFF, R. R. L. GUILLARD, AND R. S. ALBERTE. Absorption properties of *Platymonas* sp. Rey 2 containing a high proportion of chlorophyll **b**, 370
Hemoglobin, characterization of, in *Astarte,* 403
HEPLER, R. K. See S. M. Wolniak, 402
HERLANDS, L. AND J. AUSIO. The major protein in *Spisula* sperm nuclei is a protamine, 370
Hermaphroditic sea-star, *Asterina minor,* 258
Hermissenda, training response in, 364
Hippa pacifica, sampling bias and population structure, 205
HIRAI, S. See T. Fujimori, 249
Histochemistry, acetylcholinesterase localization in ascidian larvae, 344
of regeneration, in lobster claw muscle, 386
Histology, of *Aplysia* gonad, 407
Histone synthesis in *Arbacia,* translational regulation of, 367
HOGAN, A. M. B., D. MAUZERALL, AND R. S. ALBERTE. Water relations and photosynthetic characteristics of the tall and short ecophenes of *Spartina alterniflora,* 371
Homarus americanus, mating behavior in, 374
Horohalinicum, *Nereis* biology in the, 153
HOROWITCH, S. See J. Smith, 395
HOSKIN, F. C. G. See R. D. Prusch, 390
Host preferences of *Boonea* and *Fargoa,* 320
HOWE, C. L. AND M. S. MOOSEKER. Brush border calmodulin: A structural protein of the microvillus core, 372
HOWE, N. R. See L. G. Harris, 138
HUFNAGEL, L. A. Fairy rings: membrane particle arrays present during early stages of *de novo* ciliogenesis in *Tetrahymena,* 372

Spectroscopic and chemical studies, of protein-methylglyoxal complexes, 388
Sperm nuclei, *Spisula,* protamine in, 370
Spicule formation, in *Cystodytes lobatus,* 464
Spider crabs, urine production and magnesium regulation in, 221
Spindles, *Spisula,* tubulin from, 374
Spirochaetes, tubulin in, 369
Spisula, nicotinamide deamidase activity in oocytes of, 383
sperm nuclei, protamine in, 370
sperm protamine, characterization of, 357
tubulin from isolated spindles of, 374
Sponge cells, effect of aggregation factor on, 373
Sporophytes of *Chondrus,* 387
SPRAY, D. C. See M. S. Cappell, 360
Squid axoplasm, cytoskeletal proteins in, 384
regulation of intracellular pH in, 392
Squid brain, reassembly of neurofilaments from, 403
Squid giant axon, glial-axonal protein transfer in, 400
perfusion experiments, 399
transmembrane movements of sulfur compounds in, 390
potassium current changes in, 377
Squid, pressure-flow relations in systemic circulation of, 358
Starfish, oocyte maturation, 249
Starvation, effect on oxygen uptake, in a sea star, 275
Statocyst cilia transmit mechanical stimuli, 397
STEPHENS, G. C. See J. J. Costopulos, 434
STEPHENS, R. E. See E. W. Stommel, 397
Steroidogenesis, in *Rana* effect of LHRH decapeptides on, 393
Steroid production in lobster, 364
STEUDLER, P. A. See C. M. Zacks, 404
STEWART, A., B. BRYANT, AND J. ATEMA. Behavioral evidence for two populations of amino acid receptors in catfish taste, 396
STOKES, D. R. AND N. B. RUSHFORTH. Evidence for three conducting systems in the hydroid, *Clava,* 396
STOKES, R. R. AND N. B. RUSHFORTH. Evoked responses to electrical stimulation in the colonial hydroid *Clava squamata:* a contraction pulse system, 189
STOMMEL, E. W., R. E. STEPHENS, AND D. L. ALKON. Statocyst cilia transmit rather than transduce mechanical stimuli, 397
STRATHMANN, R. R. AND E. LEISE. On feeding mechanisms and clearance rates of molluscan veligers, 524
STREIBEL, E. See L. Mastroianni, 381
STUNKARD, H. W. The larval stages of *Lepocreadium areolatum* (Linton, 1900) Stunkard, 1969, (Trematoda: Digenea), 397
Subitaneous eggs, copepod, 297
SUGIMORI, M. See R. Llinás, 380
Sulfate-depletion profiles for a salt marsh, 394
Sulfates, in eel gill filaments, 104
Sulfur compounds in the squid giant axon, 390
SUPRENANT, K. A. AND W. L. DENTLER. Pancreatic secretion granules are associated with microtubules, 398
SUSSWEIN, A. J. See M. S. Cappell, 360
SVENDSEN, C. N. See J. W. Lash, 378
Synexin-like factor in anglerfish islet tissue, 389
Systemic circulation, squid, pressure-flow relations of, 358
SZENT-GYÖRGYI, A. The living state, 398

T

Tadpoles, ascidian, settling and early growth, budding, and spicule formation, 464
TAKEI, Y. See S. Lerman, 379; and J. M. Megaw, 383
TEAGUE, B. D., M. GILSON, AND A. J. KALMIJN. Migration rate of mud bacteria as a function of magnetic field strength, 399

Teleosts, gill structure of, 104
Temperature, and feeding effects on reproduction in sea anemones, 536
-dependent timing of mitosis, in *Lytechinus,* 367
developmental, effects on size and oxygen uptake in a sea anemone, 536
effect on oxygen uptake in sand dollars, 275
effects on productivity of *Moina,* 234
effects on protein synthesis in toadfish, 381
TERAKAWA, S. Excitation of squid giant axon membrane exposed to an identical solution intracellularly and extracellularly, 399
Testosterone, biosynthesis of, by *Rana pipiens,* 356
production by Leydig cells in mice, 380
Tetrahymena, membrane particle arrays in, during ciliogenesis, 372
Thalassinids, respiration in, 125
THOMPSON, C. S. See M. P. Charlton, 361
Tidal (and lunar) periodicity of *Limulus* larvae emergence, 494
rhythm in the neural gland of *Ciona,* 378
Timing of mitosis in *Lytechinus,* effects of temperature, 367
Toadfish, heavy metal effects on gut function in, 396
liver, amino acid transport in, 388
temperature effects on protein synthesis in, 381
Training response in the nudibranch, *Hermissenda,* 364
Transcription in *Arbacia punctulata* nuclei, 365
Translational regulation of histone synthesis in *Arbacia,* 367
Transmembrane movements of sulfur compounds in squid giant axon, 390
Transport, amino acid, in toadfish liver, 388
TREISTMAN, S. N. Comparison of long-lasting hyperpolarization produced synaptically with that induced by cyclic AMP in *Aplysia* pacemaker neurons, 399
Tritonia diomedea, feeding mechanisms of, 524
TROLL, W. See M. Coburn, 362
TROXLER, R. F., S. B. BROWN, AND K. M. SMITH. Mechanism of red algal bile pigment formation, 400
Tubulin, dogfish and skate brain, purification of, 377
from isolated *Spisula* spindles, 374
in spirochaetes, 369
Tunicate, larval tail muscle determination and differentiation, 344
TYTELL, M. AND R. J. LASEK. Glial-axonal protein transfer: its functional significance, 400

U

Ultrastructure of musculature in copepods, 112
of urn cell complexes of *Sipunculus,* 385
Urine production in spider crabs, 221
Urn cell complexes and mucus secretion in *Sipunculus,* 381, 385

V

VAN HOLDE, K. E. See T. D. Yager, 403
VAN HOLDE, K. E. See J. Ausio, 357
Veligers, molluscan clearance rates and feeding mechanisms, of, 524
Video-computer analysis of phototactic movements of barnacle nauplii, 166
VIERLING, E. RNA synthesis in isolated chloroplasts, 401
Voltage clamp study, of postsynaptic response to presynaptic calcium current, 380

W

Water balance, in osmoregulation and osmoconforming crabs, 422
Water relations and photosynthesis in *Spartina,* 371
WEIDNER, E. See A. Scarborough, 334
WEINSTOCK, M. See M. Krouse, 376
WEISSMANN, G., J. W. LASH, G. E. SIEFRING, J. IBERS, AND L. LORAND. Plasma fibronectin (CIG) of the dogfish plasma mediates attachment of phagocytes of collagen substrates, 401
WEISSMANN, G. See C. Serhan, 394
WENNER, A. M. AND C. FUSARO. An analysis of population structure in Pacific mole crabs (*Hippa pacifica* Dana), 205
WHITTAKER, J. R. Development of tail muscle acetylcholinesterase in ascidian embryos lacking mitochondrial localization and segregation, 344
WINKLER, M., E. BAKER, AND T. HUNT. Protein synthesis in cell free extracts of *Lytechinus pictus* eggs, 402
WITTENBERG, D. See D. Mauzerall, 382
WOLNIAK, S. M., P. K. HEPLER, W. T. JACKSON, AND G. T. REYNOLDS. Low level excitation of chlorotetracycline fluorescence in *Haemanthus* endosperm cells using image intensification, 402
WRIGHT, S. H. See J. J. Costopulos, 434

Y

YAGER, T. D. AND K. E. VAN HOLDE. Characterization of the hemoglobin of the clam, *Astarte castanea,* 403
YOSHIZAWA, H. See M. Komatsu, 258

Z

ZACKROFF, R. V., A. E. GOLDMAN, AND R. D. GOLDMAN. *In vitro* reassembly of squid brain neurofilaments and their purification by assembly-disassembly, 403

ZACKS, C. M., P. A. STEUDLER, AND J. M. MELILLO. Bacterial denitrification: a gas chromatographic study using acetylene inhibition of N_2O reductase in two hour incubations, 404

ZAMER, W. E. AND C. P. MANGUM. Irreversible nongenetic temperature adaptation of oxygen uptake in clones of the sea anemone, *Haliplanella luciae* (Verrill), 536

ZIGMAN, S. AND T. PAXHIA. Features of elasmobranch eye lenses relative to those of humans, 404

ZIGMAN, S. See D. Lipman, 379

Zostera, photosynthesis in, 382
